TECHNICAL SKILLS

Frontend: React.js (90%), Next.js (90%), Android Studio (Java – 60%), Xcode (Swift – 40%)

Backend: Node.js (90%), Python 3 (80%), Flask (80%), Django (40%), C++ (40%), C# (30%), Golang (20%)

Cloud & DevOps: Azure (Data Factory, Databricks, Serverless Functions), Docker, Redis

Databases: MongoDB (40%), MySQL (40%)

Version Control: GitHub (80%)

Other: Docker (40%)

Interests

Robotics

Artificial Intelligence

Game Development

PROFILE

Motivated Full Stack Developer with over 2 years of experience in building web and mobile applications using cutting-edge technologies such as React.js, Next.js, and Node.js. Proficient in cloud platforms like Azure, with expertise in data processing, serverless architectures, and application development. A versatile developer, well-versed in both frontend and backend technologies, and experienced in freelancing projects. Fluent in English, with a strong ability to meet deadlines and deliver quality results.

EXPERIENCE

Capregsoft – Full Stack Developer

Since April 2024

- Developed and managed applications using Microsoft Azure, including Data Factory for processing large datasets and Databricks for analytics.
- Created serverless Azure functions and integrated Slack apps to enhance productivity and workflow automation.
- Implemented key technologies like Docker for containerization, Redis for traffic management, and Stripe for payment processing.
- Delivered features and bug fixes ahead of deadlines, showcasing a strong ability to work under pressure.

Technologies: Azure, Data Factory, Databricks, Docker, Redis, Stripe, Node.js, React.js, Next.js

UZCO Engineering – Intern & Junior Developer

July 2022 – Jan 2024

- Worked on diverse app and web development projects using Android Studio (Java), Xcode (Swift), React.js, and Next.js.
- Implemented Augmented Reality (AR) solutions, contributing to innovative project deliveries.
- Gained exposure to full-stack development, handling both front-end and back-end tasks using various frameworks.

Technologies: React.js, Next.js, Android Studio (Java), Xcode (Swift), Augmented Reality, Node.js

Freelance Projects

Since May 2024

- Developed and delivered freelance projects in full-stack development, meeting client specifications and timelines.
- Built dynamic websites, backend systems, and web applications using React.js, Node.js, and Python (Flask/Django).
- Optimized database management using MongoDB and MySQL, ensuring efficient data handling for diverse clients.
